#### ACCUMULATION OF RESERVES

Active Measures for Employment of Great Sums May Have to Be Taken.

NEW YORK, June 22 -The weakness of stocks to-day gave an impresf less passiveness than the occasional drop with intervals of recover last week. There was only small expansion in the volume of dealings to

last week. There was only small expansion in the volume of dealings to account for this appearance. The active desire shown to get out of holdings of one or two stocks was largely accountable for the changed tone of the dealings. Rock Island securities were the conspicuous example in consequence of a sudden decline, which commenced in the closing dealings on Saturday, and which had a considerable influence in unsettling the tone.

There was nothing in the general active was nothing in the general fleews to prompt selling of stocks. The accumulation of banking reserves is reaching a point that seems to necessitate active measures to find employment for these great sums. Paristock gold from London to-day, and the unsatisfied appetite of that centre and of Berlin for the metal constitutes the first ripple in the money market. Reports of the placing of part of the new bond issue of the National Railways of Mexico with Paristbankers were believed to explain the decline in the foreign exchange market. Traffic officials of the great railroad systems report some encouragement in the business outlook, although there is small actual increase in the movement of freight.

A decrease in the number of idle freight cars was noted by the American Railway Association, the total having fallen to 349,394, a decrease since May 27th of 31,510 cars. There was some discussion of a possible concerted wase reduction by Southern railroads, and this had a bad effect on the tone of the market. The closing was weak.

A further break in the Rock Island collateral bonds and another fractional shading in the new Union Pacific 4's were features of the bond market, which was heavy. Total sales of bonds, par value, \$25,85,000.

United States honds were unchanged.

United States honds were unchanged.

this had a bad effect on the tone of the market. The closing was weak.

A further break in the Rock Island collateral bonds and another fractional sahading in the new Union Pacific 4's were features of the bond market, which was heavy. Total sales of bonds, par value, \$2.535,000.

amounted to 435,100 shares.

# WASHINGTON, June 22.—After being out nearly seventy-five hours, the jury in the land fraud cases, which have been on trial in the Criminal Court for the past three months, found Frederick H Hyde and J. H. Schneider guilty on all but ten of the forty-two counts in the indictments. John A. Benson and Henry P. Dimond were acquitted, and were immediately released from custody. All four men have been under \$10,000 bail. Hyde's bond was increased under the jury's verdiet to \$20,000 and Schneider's to \$22,500. Both furnished it. Sentence was deferred, and, when it is imposed, the two men will have four days in which to fite a notice of appeal. The maximum penalty for the of-GEO. T. KING & CO.,

### More Than Seven Million Dollars Annually from Placer Mines. WASHINGTON. June 22.—A Geological Survey report to-day says that precious metals to the value of more than seven million dollars annually are now being taken from the placer mines of Seward Peninsula, in Alaska. All the known facts bearing on their origin and distribution, according to the survey, indicate that a comparatively uniform, but slowly-increasing output extending over many years may reasonably be expected from these gravels, which have already contributed more than \$40,000,000 to the world's wealth. As a primary security, they constitute a paramount lien upon the surplus income derived from the operation by the Receivers of the Lines of Railroad owned or heretofore operated directly by the Seaboard Air Line Railway, and from the operation of the property of the Seaboard Air Line Railway, and from the operation of the property of the Receivership and of operation and property, of the expenses of the Receivership and of operation and such other amounts as the Court may direct.

"2. As an ultimate security these certificates constitute (i) a lieu prior to the mortgage securing the Issue of 4 per cent, bonds upon all the property of the Seaboard Air Line Railway, and upon all stocks, bonds, notes and other securities of the railway in the possession of the Receivers covered by that mortgage, (2) a lieu prior to the mortgages given to secure the three-year 5 per cent, bonds and the thirty-year 5 per cent, bonds upon all the properties covered by those mortgages, except as to certain designated collaterals which are specifically pledged under the mortgage given to secure the three-year 5 per cent, bonds.

"3. The certificates are also a lien to the collateral trust mortgage given to secure the \$10,000,000 ten-year 5 per cent, bonds."

The statement of earnings submitted by the receivers for the year ending June 30, 1907, shows that "there would have been a balance of net earnings applicable to interest on Receivers' Certificates of \$1,164,665; for the year ending June 30, 1908 (four months estimated) there would be \$1,100,711; and for the year ending June 30, 1908 (four months estimated) there would be \$1,100,711; and to \$1,382,817. "The annual interest charge on these certificates should amount to \$1,382,817. The annual interest charge on these certificates.

The undersigned offer, subject to previous sale and change in price without notice, the unsoid bninuce of the nhow certificates, smounting to about \$1,300,000, not 100 and necrued interest to delivery.
